

Collage Connections

Learning through the Arts

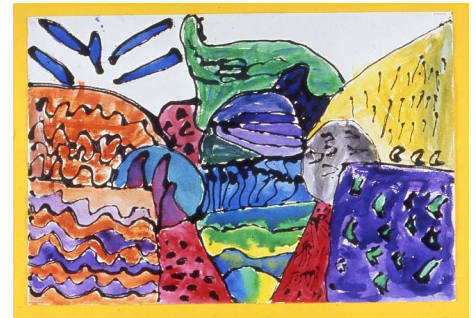

RESPOND to a collage by examining the layers of colorful shapes, patterns, and textures to find a story you think the art tells.

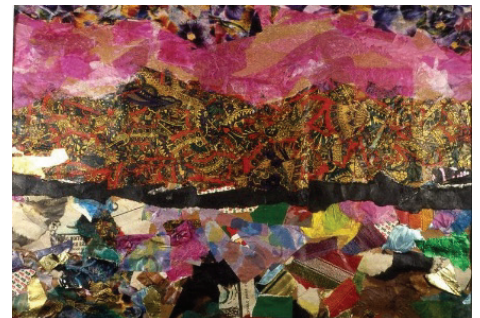

SELECT ONE OF THESE COLLAGES OR ANOTHER YOU ARE FAMILIAR WITH AND DESCRIBE WHAT STORY THE COLLAGE MIGHT TELL.

Sierra F.

Jordan V.

CREATE a collage that tells a story about your dreams and aspirations. You can sketch what your collage will look like in the design-planning area, then create colorful patterns on firm paper, cut out shapes, and glue them into a collage.

CONNECT the collage art form you created with ways you could incorporate other layers using music and dance. With a few classmates, choreograph a creative movement and music sequence that aligns with your collages.

other layers using music and dance. With a few classmates, choreograph a creative movement and music sequence that aligns with your collages.

PRESENT your team's collages and choreographed movement and music sequence. Explain the story that is told in your art, music, and dance. Discuss how creativity helps people imagine and achieve their dreams.
