TIPS AND TRICKS

Scribble

Scrub

Scribble again!

Scented Spray:

- Ask an adult for help to carefully peel the seal off of the bottle. Insert spray nozzle into the bottle and screw cap to tighten. Press down on cap to spray.
- Add scent: Spray white pets for a spicy aroma. Let spray dry completely.
- Color and customize your pets with included scented markers. You can spray decorated pets again to blur the color for a tie-dye effect.

For Best Results:

- Work on a clean, flat protected surface.
- Keep cloth or paper towels handy—water play may get messy.
- Use only Scribble Scrubbie Scented or Washable Markers on Scribble Scrubbie Pets.
- To ensure a clean pet, rinse the Scrub Tub after each use and refill with clean, cool water.

Clean Up:

- For best results, submerge pets in a sink and scrub.
- Rinse pets, brush, and tub to remove marker colors and aroma.
- Cap markers securely after use.
- Allow pets, tub and brush to dry before storing.
