

# Ways of Learning

## Creative Conversations

**CREATE** a sketch of yourself learning inside or outside of school. What was the location? What did you learn? Were you engaged in hands-on exploration or passively listening to information? Why is discovery and engagement important for learning?

**CONNECT** this learning experience and other in-and-out-of-school experiences with your personal learning style. Did you know people tend to fall into one or more types of learning styles including visual, auditory, kinesthetic, verbal, logical, natural, social, and/or solitary? Which of these represent your learning style, or are there other words you would use to describe how you learn best?

**PRESENT** your sketch and discuss your personal learning style.

**JOT NOTES AS YOU LISTEN TO OTHERS' LEARNING STYLE PRESENTATIONS.**

**RESPOND** to others' insights about their learning styles. Find patterns, similarities, and differences in the examples shared and the learning styles described.
