

SEEK Evidence

SEEK Insights

SEEK™

- SEE** What do you see?
- EVIDENCE** Why do you say that? What is the evidence?
- EXPLAIN** What decisions did the artist make? Why?
- KNOW** What do you know? What else do you want to know?

Erin L.

RESPOND to an image by reflecting on and discussing ideas with classmates or family members. Ask the SEEK questions to build your skills in observation, evidence citing, explanation and inference, and inquiry.

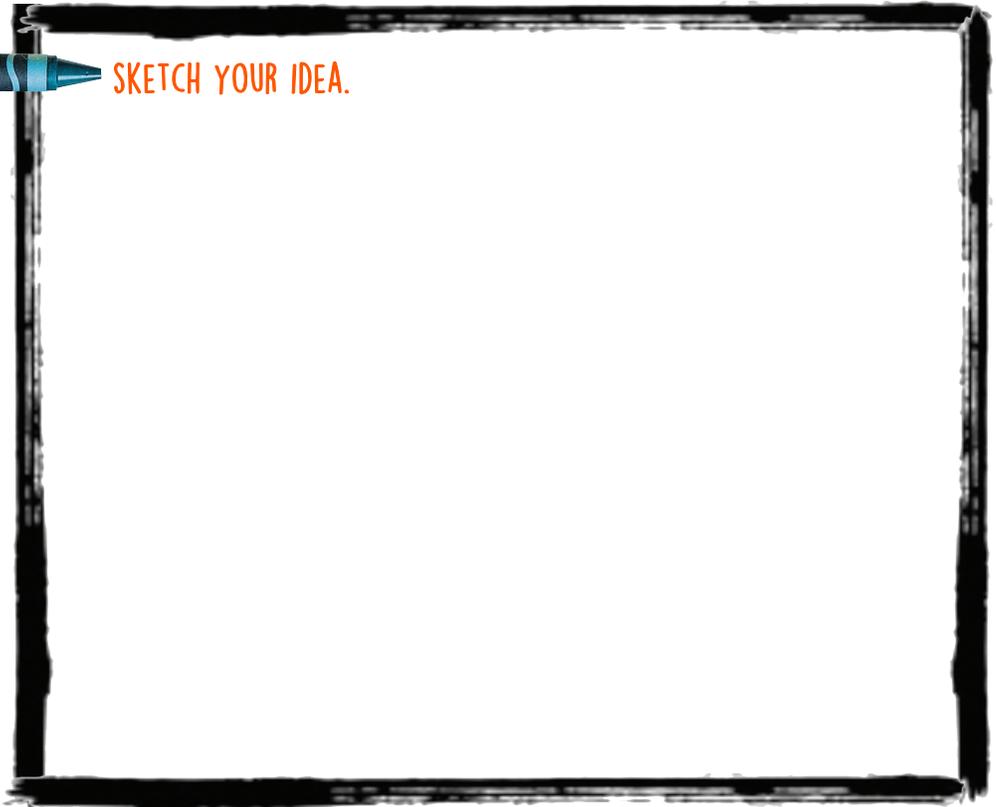

CONNECT the many ways artists communicate messages through the use of composition, colors, patterns, and symbols with what you see, know, and want to know.

SKETCH YOUR IDEA.

CREATE a sketch that is your response to the art. How does the original image inspire you? How do the SEEK questions help you identify a message you'll share visually?

PRESENT your idea to classmates and family members. Ask them to use the SEEK questions to read your art and explain what they see, know, and want to know.
